

STOCK FOIL HOT STAMP COLORS

Our imprinting processes operate in a post-production environment in which imprinting takes place on a bag which is already constructed. This means that some restrictions such as a fold or a gusset in the bag may impact its printability and available imprint area.

*Due to the many variations in monitors and browsers, color samples may appear different on different monitors. We do our best to make sure our samples are as close to the product as possible, but cannot guarantee that what you see is an exact sample. Bag color will alter the shade, tone, or hue of the foil, especially light color foil, such as white, on dark color bags. Certain foil and bag color combinations are not recommended. Please call for more details or to order foil swatch samples.

REGARDING PMS COLOR MATCHING: PMS matching is not available on Hot Stamp Foil Decoration.
